

GAZETTE GLEANINGS.

Have you seen the comet?

It looks old-fashioned to see the farmer's stacking their wheat.

Provisions are away up in Santa Fe. The washouts have been very severe on the ancient city.

A. O. Robbins sent several large loads of furniture to the depot yesterday to be shipped south.

J. E. Whitmore of Gallinas Springs yesterday loaded up a buckeye mower to be taken down to his rancho to cut hay.

Charley Bryan is fitting up the Felipe Lopez building for a restaurant. He will likely be ready to open out today.

Marwede, Brumley & Co. yesterday received another car load of hardware. They have a fine stock of goods in their new building.

The stone work on the New York Clothing House building on Centre Street, East Las Vegas, see M. J. Cavanaugh's advertisement for masons.

Wm. Morgan of the National Hotel is having the dining room re-papered and the rooms generally renovated. He proposes to have a clean, comfortable place for guests.

A street car ran over a goat on the bridge yesterday evening and killed it. The company will have to organize a board to assess claims for damages in killing live stock.

The ladies of the Presbyterian church will entertain the populace at the social at the church on the West Side tonight. Strangers will be made welcome. Citizens are all invited.

The Daily GAZETTE is delivered in Raton by regular carrier boys. Raton is a lively young city and naturally patronizes the paper that gives the latest, freshest and most reliable news.

Sam B. Datcher is now head waiter at the Depot Hotel. Sam is very obliging and attentive, and aside from these qualities he is possessed of greater attainments than the great majority of his race.

Messrs. Horn & Matthews were busy yesterday putting in a bar and arranging for a first-class saloon in Heise's old stand on the plaza. The back part of the room they will convert into a billiard hall.

It is now expected that unless some unforeseen difficulties arise, the washouts on Glorieta hill will be temporarily repaired so that the Pacific express of to-morrow will cross the break on schedule time.

Many distinguished people are booked for New Mexico, many of them foreigners of celebrity. Not alone in this country but in other lands, the great advantages of immigration to the Territory will be made known.

S. Jeffers, agent of the Morgan Desk Company, has placed one of their fine hotel writing desks in the office of the National Hotel. It is a fine piece of work and a good medium for advertising, as the cards displayed readily catch the eye of strangers.

Fred. Harvey is now in the East purchasing the furniture and fixtures for the new hotel at the Hot Springs, that are to be shipped at once. The house will be fitted up as soon as possible and it is expected that ere long it will be thrown open to the public.

Las Vegas will before long become an important mining centre. A mining engineer of acknowledged high rank is seriously considering making this city his place of residence. He is a mining expert in the true sense of the term, and is well known to old Nevada miners as well as those of Colorado.

The "Centralia" copper mine, situated at the foot of the Tecolote Butte about seven miles from this city is coming to the front as a good piece of property. Assays lately made by Professor Robertson show twenty-three per cent. copper and six and a half ounces silver per ton. This is a very encouraging showing.

The train from the east arrived on time yesterday but was tied up here. It will continue south at 8 o'clock this morning. The train from the south arrived shortly after 4 o'clock in the afternoon. This will be the schedule time for three or four days, till the washouts are fixed up, the railroad company deeming it more prudent to make the transfer around the break on Glorieta Hill and that on the Galisteo in the day time.

Victor Michel's mail and passenger stage line from Springer to Cimarron is a great convenience. He always connects with the train from the East, and leaving Cimarron at 6 a. m. people are able to reach Las Vegas and Santa Fe on the same evening. "Frenchy," as the driver and proprietor is generally known, does everything in his power to make his line popular by being accommodating and always on time. His teams are always good and his stage very comfortable. Those who intend visiting Cimarron at the coming term of court should bear this in mind.

Daily's Successor.

Mr. W. G. Shedd, Sup't. of the "Denver City" mine in Leadville, is in the city en route to the Lake Valley mining district. The syndicate that controls three hundred acres of mineral land in that rich district, with George D. Roberts and J. Whittaker Wright at the head, also owns the "Denver City," one of the most promising properties in the carbonate camp.

Mr. Shedd has been at work night and day for months superintending the erection of the mammoth machinery in the mine that is just starting up. When the news of the massacre by the reds of poor George Daly, the resident manager of the four big companies that own Lake Valley, was received in New York Mr. Shedd was telegraphed to go at once to the district and assume control of the property, and he is now on his way there. It is thought by some that an attempt will be made to seize a part of one of the properties, as there has been some litigation over a very promising prospect. But Mr. Shedd is a very determined man and if any such game is attempted he will certainly stand off the attacking party, and there would probably be a little war. The last report of Mr. Daly to the directors of the companies that he represented, stated that he had \$100,000 worth of ore that he would ship as soon as the roads were in good condition. The mission of Mr. Shedd may be to simply temporarily manage affairs but if he is to be the resident manager it will be a good thing for New Mexico for his business ways he would develop the properties rapidly, thus largely increasing the bullion output. This is not the first visit of this gentleman to the Territory, as he was attached to the Wheeler expedition of '74.

Cultural Cimarron.

Cimarron is too be congratulated on its prospects of having the first public library in the Territory. A few months ago Col. Reynolds, one of the directors of the Maxwell Land Grant Company, presented to Mrs. E. L. Sheldon of Cimarron, a check for \$5,000, the nucleus of a library fund. The lady who enjoys an enviable position in literary circles in this country and England and France, has promised of authors' copies of works of value, and material additions to the fund started by Col. Reynolds, as well as contributions from publishers. She is very much interested in this plan, and if she will only make the selection of books for the library, the public will be fortunate, and the value of the library as an educator enhanced. Col. Reynolds will also contribute books from his own library, a remarkably fine one, and will take pride in building up the library. At his request, Amelia B. Edwards, the English authoress, a personal friend of his, is making a collection of works on English history, and will contribute her own books. It will not be a merely local affair, but all the people of Colfax county will have access to the library and permitted to enjoy its privileges.

Solid Work.

[From Our Own Correspondent.]

CAMP PROSPECT, Aug. 23d, '81. We are camped on the banks of Blue Canyon creek in a beautiful grove of oaks one mile from Mineral City and in the midst of the White Carbonate district.

We have been pushing work on the road up the creek from Mineral City to Eureka camp. The almost constant rain has delayed our work, but it is nearly accomplished. A good team can now draw a reasonable load as far as the said Eureka camp.

The work of development, in all parts of our district, is being pushed forward as rapidly as the weather will permit and with very satisfactory results. Increased depth shows improved mineral, and the opinion, that some have held from the beginning, viz., that the rich mineral is down to the water level, and below, is becoming more generally accepted, and a greater proportion of the work is being done with a view to obtain depth.

We no longer consider the future of this district a matter of doubt. It will soon rank as one of the largest and richest mining camps of the Territory. SLIM JIM.

Jas. A. Phillips, the representative of A. A. Devore & Son the importing tailors of Chicago, is in the city and will remain through the week. He is soliciting orders for his house and will surely meet with good success as he is favorably remembered. It is a great convenience to our people to be able to order suits from a large house like that of Devore and Phillips' measurements insure well fitting garments. He has a large line of samples that he will be glad to show anyone at any time.

Card of Thanks.

The members of the hook and ladder company wish to express thanks to Dr. Milligan for the free use of his hall for their ball last Friday night and to Messrs. Netterberg, Huberty & Angell, Bell & Co., Graaf & Co., and the ladies, for fancy cakes, sandwiches, pies and coffee donated. Also, to others who loaned for the occasion lamps, chandeliers, tables, cutlery, etc. Furthermore, we are under many obligations to Mr. Netterberg, who so ably assisted us in arranging our suppers, etc.

COMMITTEE.

New Potatoes \$2.75 per hundred at E. Germain & Co., El Paso, Texas. 7-24-1m

PERSONAL.

W. P. Wallace is over from Santa Fe. J. A. Adrain, Logansport, Ind., is in town.

A. J. Huneke, of Leadville, is a late arrival in town. A passenger train will go south at 8:30 this morning.

G. H. More, Aurora, Ill., is stopping at the Depot Hotel. Prof. A. H. Bach came down from Trinidad yesterday.

C. A. White, of St. Louis, is registered at the Depot Hotel. S. S. Tuttle, of Bushnell, Ill., is stopping at the Summer House.

L. D. Miller and family, of Silver City, are stopping in town. John Flournoy and sons, of St. Louis, are registered at the Summer House.

Joseph Steele and wife, of Silver King, Arizona, came in from the south yesterday.

I. H. Herbert left yesterday for New York on a two month's vacation and business trip.

Ed. Marwede has been ill for a week, but was better yesterday and expected to be out to-day.

L. O. Welcome, wife and Miss Cora Welcome, arrived from Gila Bend, Arizona, on yesterday's train.

Eugene Roberts has been quite low during the past week with inflammation of the bowels. Yesterday he was slightly better.

A. Henry, of Butler county, Mo., arrived in town yesterday. He has been looking at the Western country, and is better pleased with New Mexico than any he has yet seen.

Mr. Paul B. DuChailu, the distinguished African explorer, who is now in Colfax county, will probably visit Las Vegas in the course of a few weeks, accompanied by Herr Hasse Bergman, the talented artist.

The friends of Chief Engineer W. R. Morley, of the Sonora R. R., who has been quite sick, will be glad to learn that he is fast regaining his lost strength by a vacation in Colfax county. He expects to return to Las Vegas on Friday or Saturday.

Mrs. Judge Saulsbury, of Trinidad, came down on yesterday's train. She intends to start a millinery establishment with a full line of ladies' furnishing goods if she thinks the business outlook of the city will warrant it. She will be the guest of Mrs. J. Graff while here.

Frank and Chas. Sperling, of Trujillo, Texas, are in town on business. They have closed out their store at that place, and are now looking for another suitable place to go into business. It is likely they will go into business at Raton. Lee & Reynolds have purchased the range at Trujillo and have purchased the rights of the settlers in that district.

Mr. Frank R. Sherwin, President of the Maxwell Land Grant Company, returned to Cimarron on Saturday, after an absence of eight months in England and on the Continent. He has already entered on the active duties of his office in planning for the development of the rich grant. His plans that are steadily to be carried into execution means much good for Colfax county.

Prof. J. W. Ashley and his bride, nee Annie G. Wood, arrived home from Kansas yesterday. They are both very popular and will meet with a cordial reception and hearty congratulations. The marriage of Miss Wood will not deprive us of the services of this competent instructress at present, as it is her intention to hold her position as an assistant in the Academy till the new building is completed, having acceded to the wishes of Prof. Bliss, of the New West Educational Commission.

The D. & N. O.

The Tribune of the 21st inst. contains a two and a half column article on the subject of the building of the D. & N. O. to Pueblo. That journal seems to be considerably worried at the prospect of that road being built to Pueblo and seems to think that the trade of Denver merchants will be considerably hurt in case that event takes place. If the Denver merchants would take a little wider view of the matter and recommend the extension of one or the other of those roads on to the Gulf via Las Vegas they would not be in the least injured. But on the contrary they would be greatly benefitted. It would open an amount of local trade to Denver that would perfectly astonish the merchants. If the D. & R. G. was extended to make connection with the T. P. the same object would be accomplished. Let our Denver neighbors cast about them a little and they will see their way out of this middle a little more plainly.

After Apaches.

It is reported that 400 soldiers who have been in the Ute country, arrived in Santa Fe from Ft. Lewis on Monday. They have been recalled from the region of possible red devilry to that of real hellishness. In order to have their horses fresh for the chase of the Apaches after whom they are to be sent out, the cavalrymen walked sixty miles, each man leading ten head of stock. When they arrived in Santa Fe, the men were completely played out, and on review they presented the appearance of the traditional awkward squad.

This force was to have been increased by one hundred more men, and the whole detachment was to have been sent out yesterday. It is gratifying to know that more troops are to take the field, and although there may be some truth in the adage, "better late than never," there is very little solace, and hereafter precautions should be taken that the troops are never late.

Mr. Thomas Moran, the well known New York artist, has left Denver for a trip over the entire line of the Denver & Rio Grande railroad for the purpose of making sketches along the "scenic line." He is accompanied by his son, who is also an artist, and Mr. Ernest Ingersoll the magazineist and wife. W. H. Jackson, the photographer of Denver, is also one of the party. They expect to be gone about six weeks and during that time will visit New Mexico.

Needs Fixing Up.

A GAZETTE reporter recently visited the Masonic Cemetery and found that it needs to be put in order and fixed up. Several of the head stones have fallen down and a number of the graves have sunk so as to let the water stand in the hollows, and altogether it has an unkept appearance. A workman should be engaged to put it in shape.

HOTEL ARRIVALS.

DEPOT HOTEL.

G. H. Ware, Aurora, Ill.; T. Currier, Leavenworth; C. A. White, St. Louis; Geo. B. Walker, Globe, A. T.; Joseph Stute and wife, Silver King, A. T.; A. H. DeWitt and wife, Silver King, A. T.; L. O. Welcome and wife, Miss Cora Welcome, West Bend, A. T.; I. D. Miller and family, Silver City; B. R. Pogram, St. Louis; J. A. Adrain, Logansport, Ind.; F. C. Gibson, Washout.
